

CAMERON LEVERETT

+1-530-313-8056 | camrbo@gmail.com | Sparks, NV

SUMMARY

Motivated, detail-oriented software developer with experience delivering reliable solutions, driving process improvements, and supporting cross-functional teams. Strong communicator with a record of contributing to high-impact projects.

EXPERIENCE

Zaronology Inc. | Sparks, CA

Full-Stack Developer | 07/2024 - Present

- Implemented a scalable AWS container architecture (ECS on EC2/Fargate) for Zaronology Client, which improved application performance by 40% and led to a reduction of infrastructure expenses by \$300 per month through effective workload management.
- Built core product features across stack: a custom CMS for non-technical users, two role-based portals (Admin & Customer with rule builder), and a geospatial Property Auction UI with saved filters and Google Maps.
- Created a user-friendly CMS that enabled 25 non-technical users to independently manage 2 websites, leading to a 15% increase in user satisfaction ratings based on feedback surveys.
- Optimized an existing client site's performance, improving page speed metrics by ~20% through caching and asset/code-split improvements.

NTx Ventures | Sparks, CA

Full-Stack Developer | 03/2023 - 07/2024

- Rebuilt an interactive data visualization platform with a mobile-friendly UI in two months, saving \$15K and boosting client satisfaction by 25%, demonstrating a commitment to enhancing user experience and delivering quality results.
- Developed a web scraping platform, improving diagnostics by 45% and optimizing workflows, saving 15 hours weekly.

ChartRequest | Anaheim, CA

Junior Full-Stack Developer | 08/2022 - 03/2023

- Developed an intuitive legal interface for managing medical record documents, increasing user efficiency by 20% and streamlining document handling.
- Migrated payment systems to Stripe, improving transaction speed by 40% and enhancing integration with existing systems.
- Implemented a security-focused auto sign-out feature tracking user inactivity, reducing potential security threats by 25% and ensuring compliance with industry standard

Averatist | Anaheim, CA

Entry Level Front-End Developer | 01/2022 - 08/2022

- Authored system design to migrate from plain JavaScript to a more efficient solution, resulting in a 20% acceleration in development speed. Also migrated the backend from one database system to another.
- Enhanced user experience by adopting a more efficient styling method, achieving a 50% decrease in page load times and significant improvements in Time To Interactive metrics.

Beach Coders | Anaheim, CA

Front End Dev Instructor | 02/2021 - 01/2022

- Instructed one-on-one classes on JavaScript, DS, Algorithms, and MERN stack, educating 53 unique students, highlighting a commitment to effective knowledge transfer.

SKILLS

React, AWS, TypeScript, NextJS, NestJS, JavaScript, Python, C#, .NET, Java, NodeJS, Ruby, HTML5, CSS, Redux, Git, SDLC, GraphQL, SQL, MySQL, PostgreSQL, NoSQL, Collaboration, Teamwork, Adaptability, Communication.

EDUCATION

Southern New Hampshire University

Computer Science (in progress) | 05/2025

Flatiron School

Software Engineering Bootcamp | 01/2021
